Education

Sahyadri College of Engineering and Management **2027**
B.E. in Computer Science (Artificial Intelligence & Machine Learning) - CGPA: 8.92 *Mangalore, Karnataka*

Projects

ML Code | *React.js, TypeScript, Vite, TailwindCSS, Node.js, Express.js, MongoDB* **February 2026**

- **Engineered a full-stack ML coding platform** enabling users to solve real-world machine learning challenges with in-browser Python execution and hidden test-case evaluation.
- **Built a scalable backend using Node.js, Express, and MongoDB** with JWT authentication, Google OAuth, submission tracking, and real-time leaderboard ranking system.
- **Integrated Monaco Editor (VS Code engine) for interactive code execution**, activity heatmaps, discussion threads, and performance analytics to simulate a production-grade LeetCode experience for ML engineers.

TULU-KALPUGA | *React, JavaScript, Vite, Bootstrap, JSON* **November 2025**

- **Developed an interactive web platform** to preserve and promote the Tulu language through structured learning modules.
- **Designed beginner-friendly lessons** covering vowels, consonants, pronunciation, and writing practice.
- **Architected the application for future AI integration**, including handwriting feedback, quizzes, and gamified learning.

LearnWise | *React.js, TypeScript, TailwindCSS, Supabase, PostgreSQL* **October 2025**

- **Built an AI-powered adaptive learning platform** that personalizes assessments based on user performance and accuracy.
- **Implemented real-time difficulty adjustment, progress visualization, and gamified leaderboards** to improve engagement.
- **Developed a secure Supabase-backed system** for authentication, data storage, and role-based dashboards.

Technical Skills

Languages: C, C++, Python, HTML, CSS, JavaScript, TypeScript, SQL

Developer Tools: VS Code, Git, GitHub, Jupyter, Postman, Vercel, Docker

Technologies / Frameworks: React.js, Next.js, Nest.js, Node.js, Express.js, MongoDB, PostgreSQL, Linux, Google Cloud, Tailwind CSS, OpenCV (actively exploring additional technologies)

Certifications

Oracle: Cloud Infrastructure Certified Generative AI Professional **TATA:** GenAI Powered Data Analytics Job Simulation

Google Cloud: Introduction to Generative AI Studio **Deloitte:** Data Analytics Job Simulation

Infosys SpringBoard: Database Management Systems, Python for Data Science

Achievements

- **Finalist - Inferentia 2.0 (State-Level AI Hackathon), PES University, 2025**
Participated in a 24-hour hackathon organized by the AURA AI&ML Club of PES University. Recognized for creativity, teamwork, and innovative AI-driven solutions.
- **Finalist - Hack-A-Thon: AI for Education (AI in Education 2025), ThinkPlus & SkillU**
Achieved finalist position among top participants for developing an innovative solution leveraging AI for enhancing education and personalized learning.
